

- Same as last month, most of the IT department's work this past month was devoted to working at the Bronson Branch on their new construction. There are only a few little loose ends to tie up now and we'll be all finished. Things look great, and I am very pleased at the results.
- I ordered all the gear approved last month. The Board approved \$19,220.28 + shipping and handling. The final total was \$19,353.94. Shipping then was \$133.66. All items have arrived and we will be deploying over the coming weeks.
