Midwest Collaborative for Library services has many more books for e-readers. I am a huge romance reader and used this through my old library all the time. You offer overdrive but does not have a wide selection of e-books for this genre and others.

Our Overdrive collection is a partnership with 49 libraries that are part of the Woodlands Cooperative. The libraries that make up our cooperative are dealing with a much smaller budget compared to the big library systems that make up the Midwest Collaborative for Library Services. We do have an e-book committee that meets to reviews purchases for Woodlands.

That being said, have you tried Hoopla yet? They often have a wide range of genres available and with no wait time! This digital service is something that Branch District Library purchased for our users and currently you can check out 8 digital items at a time (e-books, audiobooks, music, movies, TV, and comics). You can use Hoopla on a computer or it is available as an app on most tablets and smartphones.

Thank you for your comment and please let me know if I can assist you and further!

BDL Note: Roblox is an online Minecraft-style building and adventure game that is very popular with the tween crowd. While the tweens do get excited playing it, if any behavior problems arise we deal with them on an individual basis and have no plans to block access to this website. -John Rucker

Well, I think that all of the programs you guys do are G-R-E-A-T especially the tween teen club!

I THINK YOU  
SHOULD GO BACK TO THE  
OLD WAY OF DOING SUMMER  
READING. THE KIDS HAVE FUN  
WITH THE WEEKLY DRAWING  
AND PICKING OUT PRIZES AT  
THE END OF THE PROGRAM.  
IT ALSO BRINGS THEM INTO  
THE LIBRARY MORE FREQUENTLY.

Let us know what you think? The website is not user friendly. I work with computers all day long and I struggle finding what I am looking for. My child was in the summer reading program and I couldn't find the link to log in. I tried searching and nothing came up.

Thank you for looking into this.

BDL Note: During the full run of the summer reading program, there was  
1) a banner on the top of all pages:

2) a story made to stay at the top of the news feed on the website and on Facebook containing all the relevant links and information:

3) Searching the website for "summer reading" yields the following relevant search results at the top of the list:
