## HISTORY OF COLDWATER

When the first white people came to this vicinity, they found this area inhabited by the fierce and warlike Pottawatomi Indians. Although the old Indian trail between Detroit and Chicago (now US 12) saw great numbers of pioneers passing this way, bound for Illinois and other parts of what was then "the far west", the presence of the roving bands of Pottawatomi Indians deterred many who might otherwise have settled here. The defeat of the British in the War of 1812 and the death of the great Indian leader, Tecumseh, in 1813 caused the Pottawatomi to lose heart and in 1821 Chief Topinabee and his people sold to the whites what is now Branch County and a vast area besides, although they continued to occupy it as before, supposedly on reservations. One of these reservations, six miles square, was in Coldwater and Quincy Townships.

The present city of Coldwater occupies part of what was then a beautiful prairie some three miles long from east to west and two miles wide. It was dotted with oaks, with an occasional elm, but bordering this prairie were magnificent forests of beech, maple, walnut, whitewood, elm and oaks interspersed with many streams and with over a hundred lakes, large and small in what is now Branch County. With 1-69 barrow pits and other private lakes, we now number 200 lakes in the county.

It was natural that our first white settlers came to trade with the Indians. In 1822 Joseph Godfrey established a trading post near downtown Coldwater and a little later that year one Marantette established another post where Oak Grove Cemetery is now located.

In the year 1829 Branch County was laid out and so named by the Territorial Legislature. It was first attached to Lenawee County and later to St. Joseph. It was named in honor of John Branch of North Carolina who was President Jackson's Secretary of the Navy.

The first log house was erected in 1830 by Hugh Campbell on the present site of the Masonic Temple. In 1831 Allen Tibbitts and Joseph Hanchett platted a village here calling it Lyons. It ran from Jefferson Street to Monroe Street and from Church to Washington Street. In July 1831 Mr. Tibbitts preached the first sermon. There were 50 whites in Branch County at that time. This same year A.F. Bolton erected the first frame building—a hotel—at Masonville. Masonville was a settlement on the east banks of the Coldwater River in the west part of the present city and covered the territory from the river and east to the intersection of West Pearl Street and West Chicago Street. On the strength of this hotel, Masonville was made the County Seat. Masonville did not hold the honor long as the ambitious village of Branch, which was located south of our present airport near the present Black Hawk Mill, won the coveted plum and held the county seat from 1831 to 1842. At the time it became the county seat, it had only one log house—but it had ambitious politicians. The Coldwater Post Office was at Masonville.

In 1832 the first school was started with nine pupils and with Cynthia Gloyd as teacher. The first store was established by Silas Holbrook; the M.E. Church was founded with five members; and the first sawmill was erected at the junction of Davidson and Clay Streets.

In 1833 the name of Lyons was changed to Coldwater, from an old Indian name "Chuck-sey-ya-bish" meaning cold water. Branch County, as such began its separate existence, being previously attached to St. Joseph County and a sheriff, clerk, treasurer and register of deeds (one office) and probate judge was elected by the people.

In 1834 the "old red schoolhouse" was erected at the corner of Pearl and Hudson Streets. Today, the spot is still being occupied by our schools. The area was purchased by the city and now is being prepared for county use where the school stood.

In 1835 Masonville was platted on the east bank of the Coldwater River and again struggled to become the county seat. That year the Baptist Church was organized with sixteen members.

In 1836 the first church was built in Coldwater by the Methodists. The village had twelve houses and was growing. The next year Coldwater was incorporated as a village having a population of 140 people. Dr. Alger, traveling the Chicago Road from Detroit to Chicago, found at this time 33 taverns between Quincy and Sturgis, indicating the tremendous westward immigration through here at this time. 1837 was a terrible year for malaria fever. 32 out of 140 people died that fall. The cause was said to be the Clay Street milldam and the angry citizens, taking the law into their own hands, destroyed it. This year the first newspaper, The Observer, was issued and the Presbyterian Church organized with sixteen members.

It is indeed interesting to note that two things always occur as a few families settle close together. Schools and churches are the first to be organized. Our ancestors believed as we must—religion and education are the necessary units if we must continue to advance in civilization.

In 1840 the Pottawatomi Indians, except for a few stragglers were removed to the far west. This opened for settlement much of the land of Branch County which had been designated as Indian reservations. It also helped bring in many new settlers who had been deterred by the presence of such a large Indian population in the County. From this date the progress has been steady.

In 1841 Albert Chandler founded the Coldwater Sentinel and in 1842 Coldwater became the permanent County Seat, supplanting the village of Branch and blasting Masonville's hopes.

In 1844 two churches were built—the Baptist Church was built on the north west corner of Monroe and Pearl, and the Presbyterian Church was built on the present site of the new building of today, but was sold in 1868 to the Lutherans who moved it to its present location on S. Jefferson Street.

In 1846 the first jail was erected. Also the voters voted against the sale of liquor.

##### HISTORY OF COLDWATER-Continued

In 1847 the county voted to build a brick courthouse by a majority of 27. A majority of 27 was the same when the proposition to build the present one carried 40 years later. This one burned down on December 5, 1972 and another new courthouse started construction in the fall of 1974 on the same spot. Also this year the Masonic Lodge was established.

In 1849 the telegraph lines reached Coldwater and St. Charles Catholic Church was founded.

1850 was a banner year for the growing village. The first train arrived and Coldwater was connected directly to the populous East.

For many years Coldwater and Branch County were noted for their horses. The start was made in 1851 when A.C. Fisk purchased Green Mountain Black Hawk for the then enormous price of \$1500. Many people now living can remember the various race tracks in and around Coldwater. Raising and training race horses was a big industry for many years. In 1851 Coldwater boasted 370 houses, but the first of many disastrous fires destroyed eight stores in the business section during the winter.

In 1854 another disastrous fire along Main Street caused the village Board to prohibit the erection of any frame buildings from Clay Street to the parks. This was the first zoning acted upon in the community. The Main Street today, because of this action, is built of brick. Also this year, Oak Grove Cemetery was established, which continues to expand. There had been two earlier cemeteries—one at Masonville, which today is a cultivated field—the other on Morse Street which contains tombstones recording burials from 1835-1857. The present cemetery board maintains this burial ground even though there have been no burials since 1857.

In 1856 because of the many fires the first fire company was organized with Clinton B. Fisk as foreman. Everyone was proud of the "Excelsior" the hand pump that was purchased.

In 1857 the corner stone of the Episcopal Church was laid—it was completed in 1862.

In 1861 Coldwater became an incorporated city. That year Coldwater Light Artillery—later called the Loomis Battery—left for the war with six brass cannons and 120 men, only 49 of whom returned home three years later. Coldwater, even as her men have done in the years since—paid for her existence with the blood of her youth. Many other Coldwater men enlisted in the 1st Michigan Infantry and the list of casualties were large for such a small town. It is said over 500 men from Coldwater fought in the Civil War. To show how the raising of horses had grown in the county during the war years of 1861-65, over 3,000 horses were brought here for use in the Federal Service.

In 1865 the war ended and the soldiers returned home. That year Coldwater had its first millionaire. S.M. Siely made \$1,500,000 in oil speculations. In July the Coldwater National Bank opened and Coldwater became a money order post office.

The town continued to grow steadily after the war. In 1866 the first hospital was established where the Elks Temple now is located. One hundred new buildings were erected and new industries located here. The industries, at this time, consisted of flour mills, an oil mill, breweries, a wheel barrow factory and many small factories making cigars. By 1870 there were so many cigar makers that a Cigarmakers Union was organized and functioned for many years.

In 1870 the Lewis Art Gallery opened. For 25 years until its removal to Ann Arbor this gallery attracted visitors from all parts of the country. Recently the Lewis Collection was returned to Coldwater.

The "Seventies" was a period of railroad building and Coldwater was caught up in the spell. Two roads were chartered—the Mansfield, and Coldwater and Lake Michigan Railroad—and the Coldwater Railroad. Neither railroad was ever completed. The collapse of the Mansfield Railroad cost the investors of this vicinity \$200,000.

In 1876 an interesting item was noted. The English sparrow was introduced by Captain Mansfield and George Firth. Today it is difficult to believe that this "pest" hasn't been here always. In 1800 the first bicycle was brought to Coldwater. 1881 was an exciting year for Coldwater. A series of fires caused suspicion of incendiarism. After an investigation, several firemen who confessed were sentenced and served prison sentences. Chief Drake, after a lengthy and expensive trial, was acquitted. The cause—they needed new equipment.

In 1882 the Bell Telephone began business. In 1886 the Public Library building was dedicated—a gift from the Hon. E.R. Clarke. In 1887 an idea began that has since grown to large proportions and has meant much to Coldwater and Branch County. This was "the cottage-at-the-lake" idea begun by 10 members of Jacob Commandery at Templar Beach, Morrison Lake. Today the spread of this idea has seen the shores of most of the over 100 lakes in Branch County covered with homes, both year around and summer. Today, the money brought into the county and city each year by the summer visitors make it one of our best industries.

In 1888 a small private company started electric street lighting. Three years later in 1891 they sold their property to the city which has maintained the electric service since that date. In 1890 the first city water system was installed by vote of the people. This system was joined the next year by the light plant and Coldwater was in public utility business to stay.

In 1905 the present city charter became law. It has been revised, added to, etc. by charter amendments many times since that date, but the charter of 1905 is still the basis for the government of Coldwater.

By 1912 Coldwater, a growing city, felt the need of parks and recreational facilities. A park and recreation board was established which today has given Coldwater the splendid parks which are enjoyed so thoroughly.

## HISTORY OF COLDWATER-Continued

And so through the years Coldwater has grown-steadily at times-by spurts at other times. Slowly, but ever forward toward making it a better place to "live, worship and play." Many men and women have made their contributions--some large, some small, but each his bit--and thus Coldwater today.

In 1960, Coldwater's Centennial Committee held its initial meeting to start plans for a municipal observance of the historical anniversary in 1961. General Chairman, C.J. Medendorp, presided with 20 members present. July 4, Independence Day was observed in an all day celebration at the 4-H Fairgrounds including fireworks at night, the first since 1933.

---Mrs. Edna Wells, owner of the 75 year old S.B. Kitchel Liniment business sold out to James A. Warnhoff and Dr. J. W. Brown of St. Louis, Missouri. Coldwater voters favored expansion of the municipal power plant in preference to purchase 100% power needs from Consumers Power Company. Climax Molybdenum announced a major expansion for Coldwater's first shell building in the Industrial Park. On November 8, new city charter proposal wins by 183 ballots to become effective January 1, 1961.

1961---Godfrey Collins took up his duties under the city charter as City Manager. The Mayor was Arthur Lyons. Restoration of Tibbits Theatre was started, and the Old Opera House will again be active. In February, Harold J. Smith was appointed to become Coldwater's first Municipal Judge effective in July. On February 20 the first non-partisan primary election was held. Governor Swainson, declared Tuesday, February 28 as Coldwater Centennial Day in honor of the 100th anniversary of Coldwater as an incorporated city. Presentation made to State Senator John P. Smeekens and State Representative Frederic J. Marshall at Lansing.

1983---The Coldwater City Council this past year has made the entire Industrial Park an Industrial Development District in an attempt to attract industry to Coldwater allowing companies a tax abatement.

A Downtown Development Authority has been established in an attempt to revitalize the downtown. Panel Processing has a \$400,000 expansion in process.

Many changes have taken place in the downtown area. The American Legion is remodeling; Benedict's have opened the Meeting Place at the corner of Hanchett and West Chicago; Penney's are moving next to Parkside Pharmacy in the Karr Building; T-Shirt Alley moved from East Chicago St. to West Chicago; Michigan Bank Mid South has moved into the downtown; World Wide Communications and M & M Leather are new to the community.

A sled slide has been added to the Heritage Park with the help of the Kiwanis Club. The Optimist Club added playground equipment to Heritage Park and another practice ball field is being constructed as well as a tennis practice wall by the Tennis Club.

## COLDWATER, MICHIGAN

The city derives its name from the Indian word "Chuck-sey-ya-bish", meaning cold water.

The first inhabitants of the area were the Pottawatomi Indians. Running through their land was the "Chicago Road", which carried many settlers to the West. The presence of these fierce war-like Indians prevented much settlement of the area at first. In 1821 Chief Topinabee sold the vast area of Branch County to the Government. The village then began to grow steadily upon the Indians departure for Kansas in 1840. The growth impetus continued when the railroad arrived here in the 1850's, transporting many emigrants from New York.

The first white settlers here were Abram Bolton and John Morse, who established in 1831 a grand hotel on the "Chicago Road," which was a welcomed sight to the many weary travelers going West. The hotel became as celebrated on the "Chicago Road," as the Palmer in Chicago.

A commission was established to locate the county seat and in 1832 Branch (Near the county airport) was appointed. Branch, having one building at the time, began to grow rapidly. However, its development was short when the legislature in 1842 affixed the county seat at Coldwater.

In the 1850's the big industry in Coldwater was the breeding and training of horses. Over 3000 of these horses were provided for Federal Service during the Civil War.

## DOWN - TOWN BUSINESS ASSOCIATION

P.O. Box 222  
Coldwater, Michigan 49036 (517) 279-9375

Coldwater's DOWNTOWN BUSINESS ASSOCIATION has been working to create the best possible business atmosphere in the area since 1964. The reason DBA was formed was to provide adequate free parking and improve the over all business activity in the downtown. DBA is also involved with the continued improvement and appearance of the structures in the downtown.

The present membership in DBA consists of 51 Retail and 56 Professional and Service Businesses. Downtown Coldwater is now recognized throughout Michigan, Indiana and Ohio as being an outstanding example of what can be done when community minded business men and women and their city government work together.

The continued development of parking and customer traffic in the downtown will remain a major program.

## PLACES OF INTEREST & FACTS OF BRANCH COUNTY - COLDWATER, MICHIGAN

In 1883 the name of Lyons was changed to Coldwater, from an old Indian name, Chuck-sey-ya-bish, meaning cold spring water. Coldwater was inhabited by the fierce warlike Pottawatomi Indians. In 1821, Chief Topinabee and his people sold to the whites the land that is now Branch County.

Coldwater, the county seat of Branch County, is located at the junction of the old Indian trail to Chicago (US 12 and I-69). The Sauk Trail marker is located 12 miles west of Coldwater.

The Branch County Court House, occupied in 1888, was destroyed by fire in 1972, but many historical materials were saved for display in the new Court House which was erected on the same site in 1976.

Coldwater is noted for its early 19th Century homes, many located on East Chicago Street, and its beautiful shade trees, of which there are some 7,000, mostly stately maples.

The Tibbits Opera House, S. Hanchett Street, opened in September, 1882, has been restored and during the summer season, many fine plays are scheduled. The Tibbits Opera House has the permanent exhibition of the Lewis Art Collection (1750-1800).

The Wing House Museum, 27 S. Jefferson Street, is a fine example of a 2nd Empire home. Built in 1875, it was purchased by the Branch County Historical Society and houses an excellent display of furnishings, art, crafts and tools of the period. Tours are available - 278-2871.

There are 250 lakes, large and small, in Branch County. All are within a 15 minute drive from Coldwater, Michigan. Our county is the heart of Bluegill and Bass fishing.

## OUR COMMUNITY

Fascinating, indeed, is the Branch County area, centered around the progressive little city of Coldwater, its county seat. Although it has just over 10,000 population, it is now recognized as one of the fastest growing areas in South Central Michigan! Coldwater was incorporated 120 years ago. Over the span of years, it has grown slowly, but steadily, and now has accelerating development, offering a desirable economy within environmental control and the future is bright.

Our countryside offers more than 300 beautiful lakes and streams, with picturesque landscape, dotted with residential suburban grandeur, pleasing to the eye.

A good year-round place to live, work and play, recreational opportunities abound at our many lakes and parks throughout the county. You have a standing invitation to join our many thousands of visitors that view our scenic Branch County all through the four seasons every year.

Here is where sportsmen enjoy great fishing... hunting deer, pheasant, and cottontail... where each year there are more out-of-state fishing licenses sold because of great fishing... where resorts and vacation housing facilities are booked ahead, in some cases, for several months.

You may be struck with awe on a winter's fresh, crisp, sunny morning after a Michigan snow storm, to behold the white, sparkling beauty of mother nature; or be pleased with a warm summer day, as cool fresh breezes greet you in a shady nook of your favorite lake retreat. All these things are possible in the former land of the Potawatomi Indians where head waters of the St. Joe Valley forms a river (the "red man" called it Chuck-sey-ya-bish) crossing the old Chicago trail near the Indian trading post. We are all proud that this area today is referred to as the "Gem of Michigan".

## OUR COMMUNITY-Continued

The beautiful scenic Coldwater Country Club 18 hole golf course, is located on the banks of the historic waterway leading to Lake Michigan. Club officials have been informed by some high ranking professionals that they rate this golf course as one of the best in the Middle West. It is complimented by three other very fine nine hole courses within a few minutes drive.

It is no wonder that the many new incoming industries and their officials are attracted by the environmental climate that give their employees a better and more meaningful life. The Coldwater area has over 110 diversified industries, big and small, that help to give our community a steady and healthy economy. The so-called, "Slow down in the economy in 1970" turned out to be one of Branch County's best years, with three major industries coming into the area, and over 5 financial institutions increased their deposits over six million dollars. More than twenty new commercial and industrial buildings were under construction with the city limits of Coldwater during the slow-down period and the construction has continued at a satisfactory pace in 1971-81. The city has one of the best certified Class A Industrial Parks in Southwest Michigan.

Social and cultural activities center around Coldwater's historical Tibbits Opera House, built in 1882. Recently, this well-known old building, famous for its near perfect acoustics, has been completely restored through the efforts of a dedicated community, determined to keep alive the traditional high quality and programming of the "finest in the land", the dream of its founder. The interior walls are graced with paintings from the famous "Lewis Art Collection". The Tibbits Foundation sponsors professional summer stock plays, community winter concerts, Branch County Arts Council, Coldwater Community Theatre, civic and service club programs, according to the availability of the theatre.

Through public subscription & Federal grants a new Olympic swimming pool and 8 new tennis courts were built in 1976 next to the Little League diamonds and in 1981, a new sports building was finished.

Some of our local pride must be given to the Health Center of Branch County, as they completed a three million dollar hospital expansion, that gives our area one of the best modern medical facilities in Central Western Michigan. We have an outstanding Coldwater Community School District, comprising of one

senior high, middle school and seven elementary schools, with the system enrollment of about 3,000 pupils. Our citizens show additional pride in supporting various denominations of about 65 churches in Branch County where you are welcome as a visitor, to attend the church of your choice.

From small acorns come great trees and in 1888 a small electric light plant was started and today the Coldwater Board of Public Utilities can produce 15625 KW. They also have a tie-in of 10000 KW with the Consumers Power Company. This company furnishes power and service for most of Branch County outside the city and is available for Coldwater industrial expansion whenever needed. A new power plant has just been constructed will give ample power in the years ahead.

In this day and age of inflation and expansion, it is interesting to note, that Branch County tax roll fifty years ago was \$25,289,220 and today the state equalization county tax roll is now over \$400,000,000. It is interesting to know, fifty years ago our most desirable lake lots sold from \$50 to \$100 and today they are in excess of \$20,000. So this leads us to believe that an investment in Branch County real estate not only assures the investor good reasonable security, but an opportunity to live in an area of clean air and water, and friendly people. We welcome you to come or remain in "The Land of Hospitality"

## TIBBITS OPERA HOUSE

The Tibbits Opera House opened in 1882, when Coldwater was still a city with unpaved streets. Because there were no telephones and no automobiles, crowds had to come by carriage and by train, and the only method of advertising the Tibbit's offerings was word-of-mouth.

However, word spread and the excitement was contagious. Coldwater was one of the few places in this nation, then quite young, which had a social and cultural center. It was also the only place that could boast an Opera House "second to none."

The theatre boasted timeless architecture, excellent acoustics, splendid furnishings and only the finest of entertainment. Otis Skinner, John Phillip Sousa and his band, DeWolfe Hopper in "Tang" with comedian Mack Sennett in the chorus, Field's Minstrels, Norman Hackett, Ethel Barrymore, and many, many others played the Tibbits Opera House.

Barton Smith Tibbits built his opera house with wisdom and vision and after his death, Joseph Henning carried on the rich traditions that Tibbits had established. The aim was high, and due to the nature of the house, the enthusiasm of a populace hungry for entertainment, and the foresight and taste of Tibbits and Henning, the theatre was an unqualified success.

Since the early days of the Tibbits, many attractions have been presented. In fact, for a short time, the Opera House was turned into a motion picture theatre, catering principally to the small fry of the community with serials and Saturday afternoon matinees.

Since the theatre reopened in late 1963, since the renovation of the theatre has been undertaken, a great many of the world's most famous theatrical personages have performed for Coldwater.

The manager of the Theatre makes an annual visit to New York to pick out new and experienced performing artists for talent to be used in the Tibbits Summer Stock Broadway Plays, that draws large audiences to this famous theatre.

UPDATE ON LOCAL COMMUNITY BY THE GREATER COLDWATER AREA CHAMBER OF COMMERCE AND  
BY THE COOPERATION OF THE CITY OF COLDWATER

## COLDWATER BOARD OF PUBLIC UTILITIES

The Board of Public Utilities is a municipal utility formed by City Charter to generate and distribute electricity, pump and distribute the city water supply, and operate and maintain the wastewater collection and treatment system under the direction and management of an appointed, non-partisan five member Board of Public Utilities:

Taken as a whole, the Coldwater Board of Public Utilities represents one of the city's oldest industries and furnishes employment to approximately 50 people.

Started in 1888 as a privately owned utility with a generating plant furnishing municipal street lighting, Coldwater had one of the very first electric systems in the State of Michigan. As an indicator of just how early it was-Edison developed the first truly efficient lamp in 1879.

In 1891, the City of Coldwater purchased The Coldwater Light, Power and Fuel Company for \$25,000.00, and moved the generating plant from its original location on West Chicago Street to its new location on Bennett Street, the present day location of the power plant, where only a year before the City of Coldwater had constructed a municipally owned Water Works plant.

By the year 1900, it had become a booming local industry, struggling to keep up with the ever increasing demands for this new kind of service. At that time the only electric service available was lighting. Sputtering arc lights for the street corners and for commercial establishments, 16 and 32 candlepower carbon filament lamps for residences. Electricity in Coldwater and elsewhere in that day was generally sold at so much per lamp per month. The electric service meter was just in the process of development, hence the recording of energy used was impossible. The accurate recording of energy used was not important because most electric plants operated only during the hours of darkness and in some cases only from sundown until midnight, few people bothered to turn the lights off anyway.

By 1910, the original bonded indebtedness on the plant was completely paid-entirely from the earnings of the plant.

Since that time, future expansion of the municipal electric facility has been paid for from the earnings of the plant. In an industry where the demand for the product produced doubles every 10 years, it is no small task.

## COLDWATER BOARD OF PUBLIC UTILITIES-Continued

The electric generating plant, as it exists today, generates approximately three-fourths of the total energy demand from its 5,200 plus customers. The other portion is purchased through an inter-connection with Consumers Power Company. It is this mix of sources and the three different fuels utilized in the plant's generation (gas, oil, coal) that gives the flexibility and reliability that has served us so well.

In order to continue to provide needed energy, the Board of Public Utilities has joined forces with four other municipalities in the South Central Michigan Power Agency in order to supply needed energy to the community at the lowest cost to the consumer.

The Coldwater Board of Public Utilities also operates and maintains the municipal water supply system as well as the wastewater collection and treatment systems. Like the electric utility, the other departments of the Board of Public Utilities have seen tremendous growth.

The Water Department now maintains over fifty five miles of watermain along with services, hydrants, etc. for over 3,200 customers.

The Wastewater Treatment and collection system operates and maintains approximately fifty miles of sewers and a 4.2 million gallon per day treatment plant to remove wastes necessary for the protection of water quality of our lakes and streams.

The citizens of Coldwater can be proud of their utility. A utility which is asked to provide necessary services 24 hours a day, 365 days a year. A service which provides dividends. Not only the dividend of local control and input, but also a monetary dividend. By City Charter, the Board of Public Utilities is required to pay, in lieu of taxes, 6 1/3% of the gross income to the City.

## COMMUNITY DEVELOPMENT

The primary objective of the Community Development Program is to provide decent housing, a suitable living environment, and economic opportunities for the elderly, handicapped and persons of low and moderate incomes within the City.

This is a 100% federally funded program geared to assist qualified families and persons in meeting objectives of the program. These objectives are met through the various programs available and administered by the City's Community Development Department, such as residential rehabilitation, clearance and demolition, code enforcement and public improvements.

The Community Development Program was initiated in 1975, and provides for sewer and water extensions into the Pilot Knob. Since 1976 the City has carried out a comprehensive rehabilitation program through loans and grants, demolished a large number of condemned dilapidated buildings, and inspected some 500 houses and buildings for code and other violations detrimental to the health, safety and public welfare of the citizens.

The City was not awarded funds to operate beyond September 30, 1981. This department will be phased out until new funding becomes available.

## COLDWATER HOUSING

The Coldwater Housing Commission is responsible for review and recommendation pertaining to subsidized housing for low and moderate income persons and families within the community.

The Housing Commission is also responsible for the overall direction and management of "Englewood," a 100 unit Senior Citizen complex for low income type people.

Englewood was constructed in 1968. Present officers are President, George Henderson; V-Pres., Irene Whitten; Board Members, Donald Reppert, Richard Zeluff and William Rogers. Gerald LaBelle is Executive Director and Manager of this facility.

The Housing office is located at 60 South Clay Street. Group tours may be arranged by calling 317-278-2660.

Malcyon Point Senior Citizen Complex, accomodating 38 senior citizens on Park Ave. & S. Clay, opened in June and will be managed by the Housing Commission.

There are eight apartment buildings all occupied with totals of over 260 units, inside the city of Coldwater. There are some in construction stages and many with plans in the future. A 48 unit apartment complex, Old Mill Race Apartments, opened this year.

The Coldwater City Planning Commission entered its thirty-first year of existence with enthusiasm. They meet at least once a month, the first Tuesday at 7:30 PM. The meetings, which are open to the public are held at the City Municipal Building, 2nd Floor.

The goal of any Planning Commission in a city the size of Coldwater, is to accomplish an orderly growth. The members continue to strive for a better land use plan for Coldwater's future needs.

Charles W. Cairns of Vilcan-Leman and Associates, Inc., Southfield, meets with the Planning Commission members every other month, serving as the Planning Consultant. The consulting firm was retained following the adoption of a new Master Plan in 1977.

Voting members in addition to Chairman Richard Moore and Vice-Chairman Dr. Robert Kruttsch: John Rohloff, Alan Swain, Albert High, Al Nelson, Norm Youtsey, Mayor Albert Nelson, Sarah Gates and Charles Putman. Ex-officio members: City Manager Gary Kuckel; Building Commissioner, Jerry Boguth; and all other Department Heads, plus representatives from Chamber of Commerce and Branch County Planning Commission. Mrs. Marcellyn LaBelle, City Clerk takes the minutes.

## YOUTH FOR UNDERSTANDING IN COLDWATER

Since 1965 when Coldwater became fully involved in the program over 85 students have become a part of the Youth For Understanding family here. It was then that Bill and Phyllis McMillan had their first exchange student and they started to become involved in the placing of foreign students in the Coldwater area.

This placement of foreign students has been an exciting happening in Coldwater and along with its Sister City program has made this community a truly International City.

Youth For Understanding is a non-profit educational organization which cooperates with and receives a grant from the U.S. Department of State. Youth For Understanding is dedicated to fostering greater international understanding by making it possible to have an oversea living experience. Through the efforts of the Coldwater Kiwanis Club two scholarships to qualified Coldwater High School students have been given yearly since 1971. They have cooperated with YFU and have made it possible for 17 local students to study for one year in a foreign land or go to a foreign country under the YFU summer program.

OTHER

The City of Coldwater is the County Seat and is located at the crossroad of I-69 North and South and US 12-East and West.

Coldwater's first annual Sister City Festival adopted a Festival "logo", which was used and figures to be prominently displayed in years to come at festival time. The festival commemorated and celebrated the unique relationship between Coldwater and Soltau, West Germany for its 10 years of existence in 1981.

It has been 10 years since Burgermeister Hartwig Lindlogg of Soltau, Germany made the first visit to Coldwater upon invitations from the Mayor George Henderson, to officially initiate a Sister City relationship between the two communities. The first Sister City Festival was held in downtown Coldwater on July 10th and 11th. The Coldwater Jaycees headed by Louis Legg III, organized the event and other Coldwater service club members also got involved to stage what is hoped to be an annual affair growing each year. Thousands attended the first festival in downtown Coldwater, where booths were erected and German and American foods were served. Continuous music was provided throughout the two day period, including the Alpenlanders Bavarian Band, Groeck and Stout Rock Band, the Sweet Adelines, Estelle Voss organ music, Kevin Ireland with his accordion and Bobby Hankins. Also on the schedule were special guests from our Sister City Soltau, who numbered 41, mostly from 13 to 18 years, who sang and danced. A poster contest was held by the Coldwater Daily Reporter and a costume contest by T-Shirt Alley of Coldwater. Thousands attended the event.

Coldwater is a member of Sister Cities International and is one of 700 U.S. cities linked with over 900 Sister Cities in 80 countries. Coldwater and Soltau have exchanged over 700 persons since the program began and the host families in both cities are to be commended for making the relationship between the two cities an outstanding success for the past 10 years.

1983 is the third year for the event with over 10,000 people expected to attend.

# COLDWATER COMMUNITY SCHOOLS

The Coldwater Community School District consists of some 154 square miles and includes Kindergarten through adult programs. The programs serve 3,900 Kindergarten through twelfth grade and about 150 full time adult students with over 175 fully certified teachers. The district has a state equalized valuation of \$125,000,000. The seven Board of Education members meet the second and fourth Monday of each month in public meetings to transact school business. The board meetings are held in the central administration building, located at 15 East Washington Street, Coldwater, Michigan. The budget for the 1981-82 year will exceed 7,000,000 and will provide for additional special services beyond the regular Kindergarten through grade twelve program such as: Special Education, Adult Education, Reading Improvement Program, School Lunch and student activities. The district also works together with the Branch Intermediate School District in operating the Branch Area Career Center and other special programs of instruction.

## QUINCY, MICHIGAN

The area of Quincy was originally heavily timbered in the northern and southern parts. However, the village itself was a prairie of several acres. The soil is of excellent quality which accounted for the fact that is ranked first in farm products in Branch County.

Horris Willson was the first settler in the village. In 1830 he purchased 320 acres of land on the old Indian road, later known as the "Chicago Turnpike". Being a carpenter, he built a log house, which was opened as a tavern.

In 1832 James Corbus came to the area to help construct the Bronson Prairie section of the "Chicago Turnpike". He then purchased land in Quincy township and proceeded to build the first frame house in 1834, which he also opened as a tavern. It has been stated that there were thirty-three taverns between Quincy and Sturgis at this time, indicating the tremendous westward migration. Again when the workmen came to construct the Lake Shore Railroad in 1850, the village of Quincy became a beehive of activity.

The tremendous amount of wild game, deer and wild honey which abounded in the area, sustained the new settlers until farming became a major industry here. These valuable assets all contributed to the settling of the present day community of Quincy.

## FIRST AID IN THE HOME

### DROWNING AND SUFFOCATION FROM

**INHALING ILLUMINATING GAS:**--When a person is involved in a near-drowning accident and breathing has stopped, start artificial respiration immediately.

1. Lay the person on his stomach, bend his elbows and place the hands one upon the other, turn his face to one side and place the cheek on his hands.
2. Kneel at the head of the subject, facing him. Place your hands on the flat of the subject's back with the tips of the thumbs just touching and spread the fingers downward and outward.
3. Rock forward until the arms are approximately vertical and allow the weight of the upper part of your body to exert even pressure downward upon the hands.
4. Release the pressure and rock slowly backwards, placing your hands upon the subject's arms just above the elbows.
5. Draw his arms upward and toward you until resistance is felt and there is tension at the subject's shoulders, then lower the arms to the ground. Repeat this cycle approximately 12 times per minute.

Do not waste time on preliminary maneuvering but get immediately to the task of forcing air out of the lungs and drawing air into the lungs. Continue this action until the person revives or is pronounced dead by a physician.

**CUTS AND SCRATCHES:**--Stop bleeding by direct pressure on the wound with a sterile pad and then bandage to hold the pad in place. Send to the doctor.

**OPEN WOUNDS:**--All open wounds should be covered with gauze or bandage. Do not touch wound with fingers. Do not use anything but accepted antiseptics, or blood poisoning may be caused.

**BURNS OR SCALDS:**--If the skin is not blistered or broken, you may apply a standard burn ointment or sterile petrolatum. In cases where the skin is blistered or charred, cover with a thick sterile dressing and take to doctor.

**SHOCK:**--Lay the patient on his back, head level with the rest of his body, unless there are head or chest injuries. In this case the head and shoulders should be raised slightly. Otherwise lower the head slightly. Keep the person from becoming chilled. If he is conscious and able to swallow, give small sips of coffee, tea or warm milk. Do not give stimulants.

**POISON IVY AND SUMAC:**--Wash thoroughly with soap and warm water. Apply dressings kept wet with a very strong solution of Epsom salts and cold water; or else apply a thick paste made of soap and warm water, which should dry and remain on all night.

**FAINTING:**--Keep the person lying down with the head lower than the body. Loosen any tight clothing. If the person does not regain consciousness quickly, he should be seen by a doctor.

**FRACTURES:**--Apply splints reaching above and below the joints of the fractured bone to permit moving without pain or danger. Three persons are needed for lifting onto stretcher one at head and shoulders, one at hips and the other at the legs. Carefully transport him to the doctor. Speed is not essential.

**SPRAINS:**--Violent stretching or twisting of a joint may cause a sprain. It is characterized by pain and rapid swelling. Keep injured part raised, on pillow if an ankle, in sling if a wrist. Apply compresses wrung out of cold water, or ice bags. Send to doctor if case is severe.

**EYE INJURIES:**--Loose particles may be removed from eyelid with a clean handkerchief or a bit of cotton rolled on a toothpick. Particles imbedded in the eyeball or lid must always be left to a surgeon, or blindness may result. Use cold compresses temporarily to relieve pain until doctor arrives.

**DOG BITES:**--Wash wound with running water and apply tincture of iodine. Bandage and take to a doctor immediately to decide whether Pasteur or Vaccine Treatment is advisable. Have dog examined by local health authorities for evidence of rabies.

**SUNSTROKE:**--Sunstroke often comes on suddenly. Unconsciousness is complete, the face is flushed, the skin dry and temperature high. Treat by loosening clothing quickly and get patient into a cool place. Keep head slightly raised. Reduce temperature of the body by rubbing cold water or ice over the face, neck, chest and arm pits. When patient regains consciousness, give him plenty of cold water; but do not allow him to take too much water at first.

**BRUISES:**--The best treatment for bruises, including a black eye, is to treat with cold applications. If the bruise has become discolored, hot water should be used as often as necessary to hasten the disappearance of the swelling and discoloration.

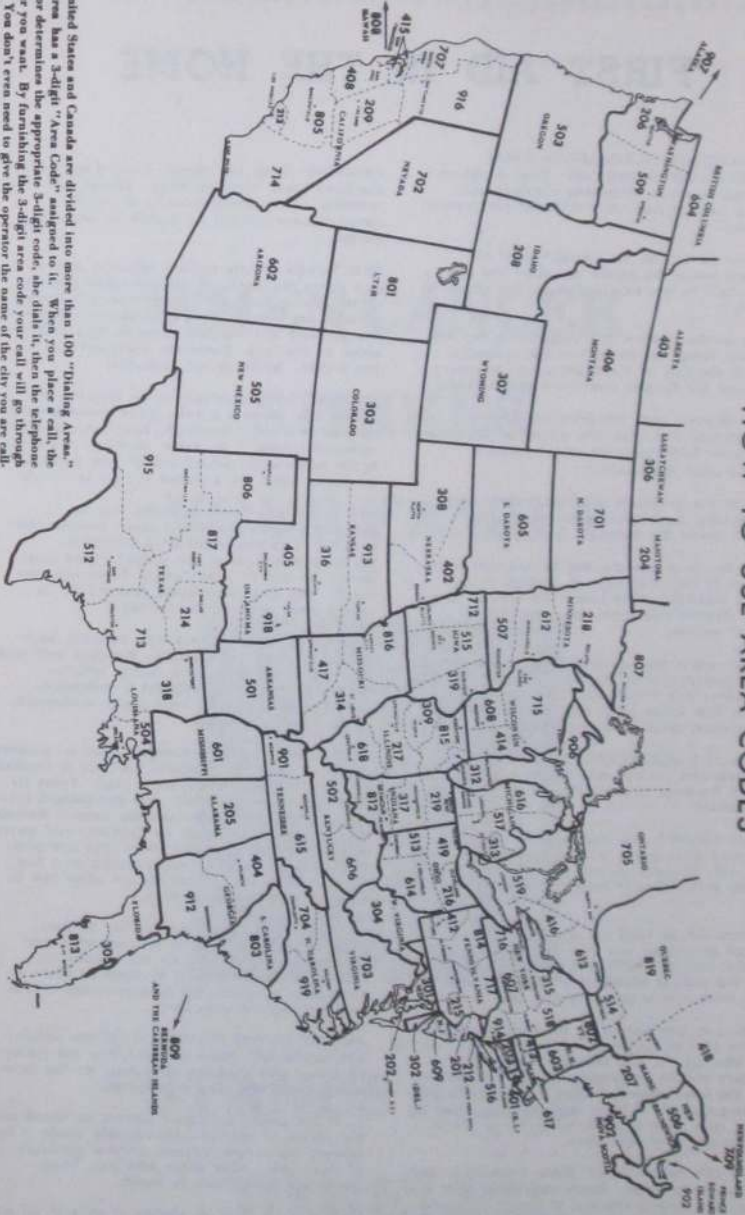

**ANTIDOTES FOR POISONS:**--1. If the poison has accidentally been ingested, find the poison container and read the directions on the label which gives the specific antidote.

2. If the poison container cannot be found and the poison is unknown, immediately dilute it by making the person swallow several glassesful of fluid, water, soda water, milk, etc. Then encourage the person to vomit.

Medical aid should be sought at once in all oral poisoning cases.

## HOW TO USE AREA CODES

The United States and Canada are divided into more than 100 "Dialing Areas." Each area has a 3-digit "Area Code" assigned to it. When you place a call, the operator determines the appropriate 3-digit code, she dials it, then the telephone number you want. By furnishing the 3-digit area code your call will go through faster. You don't even need to give the operator the name of the city you are calling, unless she asks for it.

## HOW TO USE AREA CODES

The United States and Canada are divided into more than 100 "plating areas." Each area has a 3-digit "Area Code" assigned to it. When you place a call, the operator determines the appropriate 3-digit code, the state in which the telephone number you wish. By furnishing the 3-digit area code and the city you are calling, you don't even need to give the operator the name of the city you are calling, unless she asks for it.
