INTRODUCTION

R. L. POLK & CO., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1954 edition of the Coldwater City Directory.

Confidence in the growth of Coldwater's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Coldwater to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Coldwater Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 17 to 152, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Coldwater, and the name, official personnel, nature and address of each firm and corporation in the city.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 153 to 192. In this section the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 48, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Coldwater. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Coldwater, the necessity of having this kind of information available is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 241 to 268, on white paper. This department lists

the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Coldwater. There are more than 600 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which R. L. Polk & Co. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO.,
Publishers.

COLDWATER

(Courtesy Coldwater Chamber of Commerce)

Statistical Review

Form of Government—Mayor and 8 Councilmen.

Population—8,542 (1950 U. S. Census).

Financial Data—2 banks with resources of \$15,884,184.00.

Industry—Chiefly manufacturing: principal manufactured products are department store display fixtures and mannequins; brass, iron, and aluminum castings, automatic bearings and shoes.

Newspapers—The Coldwater Reporter, published daily.

Radio—Station WTVB.

Railroads—New York Central.

Bus Lines—Greyhound Bus.

Highways—US 27 and US 112.

Airports—2, for smaller aircraft.

Recreational Facilities—2 parks provide tennis courts and playground equipment including a softball diamond; bevy of clear lakes provides fishing, boating and swimming.

Education—6 public schools including the Coldwater State Home and Training School for mentally retarded children; 2 parochial schools.

Location

Coldwater, Michigan, county seat of Branch County, located in the south central portion of the state is 15 miles from the northern Indiana boundary line.

History

Coldwater is indebted to the Indians, which prior to the white man's push westward, inhabited this area. To them can be attributed the name and probably the very existence of the city. When the "Red Men" first viewed the many beautiful lakes which surround this community they exclaimed in their difficult tongue "Chuck-sey-ya-bish" which translated means Coldwater. It was the Indians also, who created the old Chicago trail, which has since developed into the heavily traveled US Highway 112, extending from Detroit to Chicago, and on which the town of Coldwater grew from a few scattered trading posts into a progressive city.

Before the city was incorporated in 1837, a battle was waged with the now extinct town of Branch for the honor of becoming the county seat of Branch County. Branch village erected a jail and enjoyed a brief go at county seat status until Coldwaterites burned the building to the ground and proceeded to erect their own jail and court house.

The fierce Potowatomie Indians ruled the roost in this area in its early history but with the death of their powerful chief "Tecumseh," in 1813, they became discouraged and ceased trying to stem the tide of the fast growing white population.

Education

Two high schools (one parochial), four ward elementary schools, and a parochial elementary school comprise this city's educational system which has been rated among the best in cities of similar size in the state. Pride of the local system is the new \$375,000 Edison elementary school which was erected in 1949. Other new facilities include a spacious bowl-type grid field, which boasts a seating capacity of over 5,000. It is equipped with lights for night games, a colorful press-box and a team room building constructed by the Junior Chamber of Commerce. A new farm shop and industrial arts building, a project which has been spear-headed by the Coldwater Kiwanis Club (you see our civic organizations really go all out in efforts to provide proper facilities for the kids) is scheduled for the future.

Medical Facilities

A modern 75 bed hospital in Coldwater, known as the Community Health Center, provides excellent facilities for the entire Branch County area. It was constructed in 1939 and has recorded steady increases in patronage over the years until now at least a 20-bed addition is under construction. This medical institution is staffed by competent physicians who have their own private practices in Coldwater. Also located in Coldwater is the Branch County headquarters of the Branch-Hillsdale district health department, which oversees and maintains health and sanitary programs in the county community.

This city is also the home of the Coldwater State Home and Training School, an institution for the mentally retarded.

Recreation

Two fine parks provide ample outdoor recreational facilities for adults and youngsters alike. Each contains tennis courts and playground equipment for the children. A lighted softball diamond is a feature of Waterworks Park located in a southeast portion of the city. An eight weeks summer recreational program, which features swimming instruction at nearby Coldwater Lake, in addition to competition in all kinds of playground sports, is provided each year for the youngsters. Adults are encouraged to participate in evening activities such as volley ball, softball and archery.

The Coldwater community area boasts a bevy of clear blue lakes, which annually attract thousands of swimmers as well as fishing and boating enthusiasts from outstate as well as metropolitan areas of Michigan. Each summer, a week-long Fishermen's Festival program staged by the Chamber of Commerce, gets much favorable publicity for the community.

The new high school grid bowl, dedicated in 1951, has also been the scene of area marching band festivals, semi-professional football games and other student activities. High school athletic teams in Coldwater are consistent winners and have won many outstanding honors including the 1949 State Class "B" basketball championship.

Industry

Coldwater's industrial activity is wholesome and diversified. A wide variety of things, from brass castings to de-

partment store display fixtures, are manufactured here. The L. A. Darling Co., believed to be the largest manufacturers of mannequins and other display fixtures in the world, has plants located in Coldwater and nearby Bronson. The Homer Foundry Company is located here and enjoys nation-wide distribution of its foundry products.

One of the most beautiful plants in the town houses the packaging division of Federal-Mogul, automotive bearings manufacturing company. Other products turned out here include shoes by the M. T. Shaw Company.

A new industry, the Gamble-Skogmo Corporation, made Coldwater its home in 1951. This progressive merchandising organization erected a huge warehouse and district office structure in the new industrial development portion of the city. A steady production of brass, iron and aluminum castings adds to the industrial stability of the community.

Government

Coldwater is governed by an eight-man council with a mayor at its head. The city elects four members to a board of county supervisors, which is the governing body of the county. A city clerk, a treasurer and engineer, an attorney and police and fire department chiefs are other officials of the city.

Transportation

Coldwater is bisected by two major US highways, US 27 and US 112, which makes this city easily accessible by automobile or bus. A branch of the New York Central's Toledo to Elkhart line passes through this city, the two trains a day providing service for Coldwater residents. The Greyhound Bus Lines maintains a station here. Two airports provide facilities mostly for small aircraft.

Communications

Radio Station W T V B in Coldwater is a 5,000 watt station operating on both AM and FM bands with an effective service radius of about 45 miles. This service radius includes approximately 580,000 people.

Coldwater has one daily newspaper—The Coldwater Reporter—with a daily circulation of approximately 7,500.

Population

The city of Coldwater counted a total of 8,542 residents in the 1950 census and is expected to climb up over the 10,000 mark before the nation-wide census is taken again. Ability to entice new industry here, which is a function of the Chamber of Commerce, will go a long way in determining future growth.

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1954

Copyright, 1954, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes houses and places of business having telephones.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

There Is No Substitute for Butter

3251 Calories in a pound of butter. At 80 cents per pound,
cost one cent for 40 calories.

Butter is the most nourishing and most necessary fat we have,
especially essential to the growth of children.

Scientists have recently discovered that one (1) pound of butter contains 7 times
as much *vaccenic acid* as one (1) pound of lard, which promotes growth in children.
There is a small amount of *vaccenic acid* in meats, none in vegetables
or vegetable oils.

Eat "PERFECTION BRAND" Creamery Butter

FEDERAL - MOGUL SERVICE

Division of Federal-Mogul Corporation

600 W. Chicago Street

COLDWATER, MICHIGAN

Millions of Federal-Mogul Service bearings are used every year by manufacturers and in the reconditioning of passenger car, truck, bus, and tractor engines.

These bearings are manufactured in plants located in Detroit, Greenville, and Saint Johns, Michigan; in Cleveland, Ohio; and Mooresville, Indiana. The finished bearings for the service trade come to Coldwater for classification, packaging, and master stocking. Bearing shipments go out from Coldwater to our 78 branches throughout the United States and Canada.

Distributors located in 87 foreign countries are served by our export department here in Coldwater.

Federal-Mogul products are advertised internationally in leading consumer and automotive trade publications.

T. C. ETHERIDGE, Pres.

"r"—RESIDENT

"h"—HOUSEHOLDER

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r", before an address stands for "Resident". That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.
