FRIENDS SINCE '72

WServing Safely Down Through the Years N

1872

1937

In that early day a trip to town with team and wagon, over rough country roads, required a day or more each way. Yet, as long ago as 1872 folks all over Branch County were banking with the Southern Michigan National Bank at Coldwater, the County Seat.

water, the County Seat.

Today the town is only a few minutes drive over concrete pavements. The Southern Michigan National's facilities and service have been "speeded up" similarly to a complete banking Service—Commercial—Savings—Trust—Loans—Traveler's Checks—Foreign Exchange—Safe Deposit Boxes—Collections—Christmas Savings—Night Depository—but its close friendship with the county today rests on the same foundation as years ago.

Safety for Deposits and Confidence in our Depositors and their Enterprises.

Remember, we took your dead stock away at a loss to us during the depression when our competitors were closed down or they charged you for removing same. Now that hides and by-products are high there is a scramble for business.

We have all up to date equipment and with two men on each truck we can remove your animals with no damage to your buildings. We will meet all competition as to price and give seven day week service. Montgomery district call Fred Whitney at Montgomery No. 14, or Coldwater 146, 193 or 648 and reverse charges.

"FOR CERTAIN"

That's Consumers Farm Service

The farmer has to take enough chances on the weather droughts, frosts, floods, hall, cyclones and other hazards of rature—in running a farm, raising a family, making a living.

When it comes to Consumers electric service—that is one thing he is sure of.

He knows where the julce is coming from and what's back of it in the line of responsibility, experience and equipment that support the enterprise to see that he gets service, plenty of it, and gets it 24 hours a day. And he knows an organization is on the job day and night to meet emergencies with man-power and materials.

These are all elements of a practical farm service.

With Consumers rural electrification plan, considered one of the most liberal and progressive in the country, he gets these services "for certain."
