BRANCH COUNTY, MICHIGAN

RURAL DIRECTORY

This information has been compiled from sources and by persons deemed to be reliable. We have tried to make this directory accurate but cannot guarantee a complete absence of errors or omissions and so take no responsibility for any that might appear.

The master copy of this directory contains the following sections of information organized for convenient reference.

1. GENERAL INFORMATION SECTION---contains a history of Branch County, Bronson, Union City & Quincy; an Industrial List, a list of Branch County Officials, City & Village Officials, a page of instructions on the use of your directory, a list of abbreviations, etc.

2. BRANCH COUNTY ALPHABETICAL SECTION---gives listings in alphabetical order according to family name. The information found in this section includes family name, given name and initial, wife's name & occupation with names and year of birth of minor children in parenthesis, occupation of the head of the house, house number, road on which subject lives, township, mailing address and telephone numbers. Names of persons who reside with others are listed in proper sequence alphabetically. (They are also listed in the Road Guide.)

3. BRANCH COUNTY ROAD GUIDE---shows everything as it occurs along each road of the county. This sequence includes homes, landmarks, road intersections, mail route changes and the names of townships all in order as they occur. The houses are numbered to correspond with the keyed county map. The numbering begins with 100 at the Base Lines and increases 100 each mile. Even numbers are on the South and West sides of the road and the odd numbers are on the North and East sides of the road. Telephone subscribers are denoted by the symbol Δ and telephone numbers are given, acreage denoted by (a), ownership denoted by ⊙ and the letters TAF denote Total Acres Farmed.

The Home Edition of the Directory does not contain the Road Guide.

4. BRONSON ALPHABETICAL SECTION---this section lists business places and home residents alphabetically. These listings give in order: family name, given name & initial, complete telephone number following the symbol Δ, street address, employment and employer, wife's name, wife's employment & employer and names and year of birth of minor children.

5. BRONSON STREET GUIDE---this section enables you to learn the name of the occupant of any given street address. It shows home ownership and telephone numbers.

6. SHERWOOD & UNION CITY ALPHABETICAL SECTION---this section lists business places and home residents alphabetically. These listings give in order: family name, given name and initial, complete telephone number following the symbol Δ, street address, name of town, employment and employer, wife's name, wife's employment and names and year of birth of minor children.

7. BUYERS GUIDE---contains advertisements and listings of our subscribers giving items, products and services they wish to offer residents of this county.

8. MAP OF COUNTY---this county map has been keyed for your convenience.

Hillsdale, Mich.

This publication
is the product
of a member of...

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a

tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organization and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

***Association of North American Directory Publishers**
NEW HAVEN, CONN. -06509

How To Use Your County Directory

1. Find family name of the party you wish to locate in the alphabetical section of the directory. The information given in the ALPHABETICAL SECTION follows:

JONES	Anton E	(Genevieve B:Jim 54, Jane 59)	farmer	2462
family name	given name	wife's name:children's names & year of birth	occupation	house number
Forrest Road	Orchard Twp	R3 Jamestown	↓ 695-3725	
road name	township	mailing address	telephone number	

2. Find the road on which the party lives in the Road Guide in your directory. Numbered road will be found in numerical sequence and named roads in alphabetical order. The information given in the ROAD GUIDE follows:

FORREST ROAD (B-1) ← Road name and index to map.

UNION TWP ← Township in which road starts. Township abbreviation, twp where road starts and general direction.

Mailing Address: ← Mailing address. Township or County Road number, rural route number and town or Post Office.
 Forrest Road
 Jamestown 49266
 The address continues for all the names following until another mailing address is shown. Zip Codes are listed with changes of mailing address.

2179 James John E @120a
 2190 Beyer Cleo O
 2199 Brown Asa D @695-3725
 2203 Sanders Samuel @40a
 2220 Smith Gus
 2231 York Elmer @80aTAF0a ← Occupant owns 80 acres but does not farm any part of the land.

ORCHARD TWP ← Enter new township. Numbering begins anew at change of township.

2300 Rick Ray E @@60a
 Day Doyle E ← This person lives with family above.
 2321 Maxwell Ivan N @ ← @ indicates ownership.
 2328 Rapp Nathan I @40a ← Acreage is shown by a.
 2340 Linsinger Paul M @695-9231 ← Telephone numbers are listed in the Road Guide.
 2345 Baker Rex @80aTAF420a ← Occupant owns and farms 80 acres and rents and farms an additional 340 acres-total of 420 acres.

TARR ROAD intersects ← Intersecting roads are shown.

Mailing Address: ← Change of mailing address is shown.
 Tarr Road
 Belleville 49242

2400 Ingle Fred N TAF240a ← Occupant does not own any land but rents and farms 240 acres in total.
 2440 Rogers Mark W @
 ---- Woodlawn Cemetery ← Landmarks are shown--helpful at night. Count the number of houses from landmark.
 2459 Vacant House
 2462 Jones Anton E @695-3725@2a ← Well, here is the man we're looking for. He lives in the eighth house in Orchard Township on the south side of the road or the fourth house after crossing Tarr Rd., or, at night you could find him easier as the second house on the south side of the road after passing the cemetery.

3. Your convenient, keyed county map will be found at the back of your directory-----The simple way to locate a road on the map is to look first for the township as the township lines are clearly defined on your map. Now within the township, you can readily find the road you are looking for. By using your map and road guide you can easily tell how many homes there are from the county line to the first road intersection and their proper position along the road.

NOTE

The listing given above is a fictitious one, used only to show how information can be obtained from the directory. Pick out a family actually living in your county and follow the steps given above.

BRANCH COUNTY HISTORY

Branch County, now one of the thrichest sections of the country, was a primeval wilderness little more than a hundred years ago, inhabited only by the Pottowattomie Indians—a fact easily understood when we recall that at that time there was not a mile of railway in the entire United States.

While it is true that there were trading posts within the limits of what is now Branch County as early as 1825, the first actual white settler appears to have been Jabe Bronson, who made his home in 1828 in the locality now bearing his name—Bronson. It should be borne in mind that the entire population of Michigan in 1820 was less than 9,000, and not much more in 1828.

However, the old Indian trail between Detroit and Chicago (now the Chicago Road or "U.S. 12") saw great numbers of pioneer passing this way, bound for Illinois and other parts of what was then the "far west". The presence of the Indians deterred many who would otherwise have settled here.

It was in the year 1821 that Chief Topinabee and his people sold to the whites what is now the County of Branch and a vast area besides, though they still continued to occupy it as before, supposedly on reservations, one of which was a tract six miles square called Mikkesawbee, in parts of the present Quincy and Coldwater Townships. But the Redmen roamed everywhere, to hunt and fish as they chose, in what seemed to them a paradise, for the woods abounded in deer, wild turkeys, pigeons, squirrels and other varieties of game, while the many lakes and streams swarmed with the finest of fish; and walnuts, butternuts, hickorynuts, hazelnuts and berries of numerous kinds were to be had in great abundance for the gathering. The deed conveying this goodly land to the government was signed by Topinabee, followed by Wawenickamack, Mayonchee, Atchwemuckquee and numerous other braves then prominent in the councils and affairs of the Pottowattomies.

There were quite a number of beautiful prairies, notably at Coldwater, Bronson and Girard; but the great bulk of this region was covered with splendid forest of beech, maple, walnut, hockory, whitewood, elm, oak and other trees. Untold millions of lumber-feet of these trees were cut by the early settlers, piled in "log heaps" and burned in order to clear the land. Many streams wandered through the forests, and there were some ninety lakes, large and small, in what is now Branch County.

In the year 1829 Branch County was laid out and so named by the Territorial Legislature of Michigan. It was first attached to Lenawee County and later to St Joseph for judicial purposes. The name was given in honor of John Branch of North Carolina, Secretary of the Navy in President Jackson's cabinet at that time.

The year 1830 saw little hamlets spring up at Coldwater and Bronson, while a tavern was established at Quincy—all on the Chicago Road. On account of the lack of highways the settlements at the junction of the Coldwater and St Joseph Rivers (Union City) and on the former stream of Hodunk were made several years later, although Girard Prairie had a few white settlers soon after Coldwater's inception. Both Coldwater and Girard had quite pretentitious Indian villages when the white men came.

From this time on settlement proceeded rapidly, as shown by the fact that Michigan's population increased from 31,639 in 1830 to 212,267 in 1840; but Branch County's early "boom" did not come until the Pottowattomies were removed to Kansas in 1840. Further impetus was also given by the building of the Michigan Southern & Northern Indiana Railroad across the county in 1850; this road later became the Lake Shore & Michigan Southern and is now a part of the New York Central System.

The county seat was first at Masonville, on the east bank of the river, in the west part of the present city of Coldwater, but was soon transferred to the ambitious village of Branch, which held that honor from 1831 to 1842, when Coldwater won the coveted plum after an exciting and most memorable contest.

The county's separate existence dates from the year 1833, and its population increased steadily until 1900, when we numbered nearly 28,000 people. The census of 1970 gave Branch County 37,906.

Branch County has often been called "The garden spot of America", and certain it is that very few localities can surpass her for fertility, diversity of crops, and general prosperity of her people.

The County of Branch now has two incorporated cities; Coldwater, with 9,099 people, and Bronson with 2,390; also three incorporated villages: Quincy, 1,540; Union City, 1,714; and Sherwood, 400 (1970 census). Each has its own industries and sources of wealth and prosperity, by no means the least of which is the splendid agricultural country adjoining. The villages of Batavia, Girard and Kinderhook are not incorporated; and to these may be added several smaller hamlets about the county.

QUICK FACTS ABOUT MICHIGAN

In land and water area combined, Michigan is the largest state east of the Mississippi and ranks tenth in the nation. Its area includes 57,022 square miles of land area and 38,769 square miles of water surface.

Michigan is the automotive capital of the world.

Michigan has more than 11,000 inland lakes and more than 36,000 miles of streams.

Michigan ranks fifth or higher in production of more than 20 major food crops, although ranking only 22nd in land area.

Michigan was the first state to establish roadside picnic tables.

Three of America's top five industrial corporations and 23 of its top 500 businesses are headquartered in Michigan.

In Michigan you are never more than six miles from a lake or a stream.

Big Mac, arching five miles over the Straits of Mackinac to connect the Upper and Lower Peninsulas, is one of the world's great bridges.

Michigan leads the nation in number of state parks and prepared campsites. Michigan has 75 state parks, three national forests and more than 150 municipal camping parks. Altogether they have more than 15,600 prepared campsites.

Michigan has a greater variety of minerals--metallic and non-metallic--than any area of comparable size in the world.

Michigan's public roads and streets would go around the equator more than four times.

Interlochen is one of the world's greatest centers of youth talent and training in the arts.

Michigan's land area is larger than Greece and nearly five times the size of Belgium.

Two thousand Michigan firms engage in world trade.

Stand anywhere in Michigan and you are within 85 miles of one of the Great Lakes.

Michigan is the hub of the rich Great Lakes industrial market area. Over 70 million consumers are within 500 miles of Michigan's capital.

Four flags have flown over Michigan---French, English, Spanish and United States.

Michigan's rivers and streams would reach one and a half times around the world.

Michigan State University at East Lansing was the first land grant college.

Michigan's Upper Peninsula is as big as Connecticut, Delaware, Massachusetts and Rhode Island combined.

We grow almost all of the country's navy beans.

Few states equal Michigan in per capita support of higher education.

Michigan ranks first in 19 manufacturing categories including motor vehicles and cereals.

Michigan is the nation's number 1 salt producer.

The famous Sault Ste. Marie Locks, which unite Lake Superior with the other four Great Lakes, rank high in navigational importance.

Michigan has a highly diversified skilled labor force, as shown by the fact that skilled labor in Michigan mans more than 350 different types of industry.

The first auto traffic tunnel built between two nations was the mile-long Detroit-Windsor tunnel.

Michigan was the first state to guarantee every child the right to tax-paid high school education.

One of the longest toll-free interstate highways in the nation is I-94, extending 275 miles between Port Huron and New Buffalo, Michigan.

Fifty-five per cent of the world's merchant fleet can reach Michigan harbors via the St Lawrence Seaway.

The Upper Michigan Copper Country is the largest commercial deposit of native copper in the world. It has yielded over 11 billion pounds in the past century.

Milk is our biggest single source of farm income, bringing Michigan farmers more than \$245 million in 1969.

Michigan labor is highly productive, ranking first in value added in manufacturing per employee and second in value added in manufacturing per production worker.

More tonnage passes through the Soo Locks in an eight months Great Lakes navigation season than through the Panama Canal in a normal year.

Michigan has a larger variety of commercial tree species than any other state, and its forest products industries contribute almost one billion dollars annually to the Michigan economy.

So great is the variety of Michigan foods that Michigan comes closer to setting the family table completely--breakfast, lunch and dinner--than any other state.

Michigan has more fresh water coastline than any other state.

Sault Ste. Marie, established in 1668, is the oldest town between the Alleghenies and the Rockies. Michigan has 40 symphony orchestras, 12 professional string quartets, 150 high school string quartets and approximately 200 civic choruses.

Michigan's population is official estimated at 8,766,000. It was 7,823,000 when the 1960 census was taken.

The University of Michigan at Ann Arbor was the first state university established by vote of the peoples through their Constitution.

Michigan leads the nation in the production of red tart cherries, dry edible beans, blueberries, cucumbers for pickles and eastern white winter wheat.

The world's largest limestone quarry is located at Rogers City.

Ironwood is as far west as St Louis, Missouri; Port Huron is as far east as Greenville, South Carolina or Asheville, North Carolina; Hancock is farther north than Montreal, Canada.

QUICK FACTS ABOUT MICHIGAN-Continued

Michigan is a four-season tourist attraction. Tourism brings more than 13 million travelers to Michigan each year.

It is nearly as far from Ironwood in Michigan's Upper Peninsula to Detroit as it is from Detroit to New York City.

Michigan has more than 70 developed winter sports areas.

Michigan, a leader in health programs, is one of the few states to have a cancer research center-- the new G. D. Cummings Cancer Products Development Center located in Lansing.

Despite its location in Lake Superior, largest and coldest of the Great Lakes, Isle Royale National Park nurtures more than 30 types of orchids. The island also shelters one of the largest moose herds remaining in the United States.

Nowhere else is there a massive citizen effort for the progress of the state comparable to the annual Michigan Week.

State Bird: Robin

State Flower: Apple Blossom

State Stone: Petoskey Stone

State Tree: White Pine

State Fish: Trout

State Motto: Si quaeris pensinulam amoenam circumspecte (if you seek a pleasant peninsula, look about you.)

Michigan's name is derived from the Indian words "Michi-Gama" meaning Large Lake.

Michigan was admitted to the Union in 1837, the 26th state.

Prepared By
The Greater Michigan Foundation

PLACES OF INTEREST & FACTS OF BRANCH COUNTY COLDWATER, MICHIGAN

In 1833 the name of Lyons was changed to Coldwater, from an old Indian name, "Chuck-sey-ya-bish" meaning cold spring water.

Coldwater was inhabited by the fierce warlike Pottawatomi Indians. Chief Topinabee and his people sold to the whites, in 1821, what is now Branch County.

Coldwater is the junction of the old Indian Trail to Chicago (U.S. 12 & U.S. 27). Sauk Trail marker is located 12 miles west of Coldwater.

The Branch County Courthouse, occupied in 1888, has historic material on display. Exhibit is authentic, but unattended.

Early 19th century homes, many located on East Chicago Street. Coldwater is noted for its beautiful shade trees, of which there are some 7, 100, mostly stately maples.

The Tibbits Opera House, S. Hanchett Street, opened in September, 1882, has been restored and during the summer season, many fine plays are scheduled. The Tibbits Opera House has the permanent exhibition of the Lewis Art Collection (1750-1800).

There are 92 lakes in Branch County, all within a 15 minute drive from Coldwater, Michigan.

Branch County is the heart of Bluegill and Bass Fishing.

COLDWATER, MICH.

**THE TIBBITS OPERA HOUSE**

The Tibbits Opera House opened in 1882, when Coldwater was still a city with unpaved streets. Because there were no telephones and no automobiles, crowds had to come by carriage and by train, and the only method of advertising the Tibbits offerings was word-of-mouth.

However, word spread and the excitement was contagious. Coldwater was one of the few places in this nation, then quite young, which had a social and cultural center. It was also the only place that could boast an Opera House "second to none".

The theatre boasted timeless architecture, excellent acoustics, splendid furnishings and only the finest of entertainment. Otis Skinner, John Philip Sousa and his band, DeWolfe Hopper in "Tang" with comedian Mack Sennett in the chorus, Field's Minstrels, Norman Hackett, Ethel Barrymore, and many, many others played the Tibbits Opera House.

Barton Smith Tibbits built his opera house with wisdom and vision and after his death, Joseph Henning carried on the rich traditions that Tibbits had established. The aim was high, and due to the nature of the house, the enthusiasm of a populace hungry for entertainment, and the foresight and taste of Tibbits and Henning, the theatre was an unqualified success.

Since the early days of the Tibbits, many attractions have been presented. In fact, for a short time, the Opera House was turned into a motion picture theatre, catering principally to the small fry of the community with serials and Saturday afternoon matinees.

Since the theatre reopened in late 1963, and since the renovation of the theatre has been undertaken, a great many of the world's most famous theatrical personages have performed for Coldwater audiences.

COLDWATER CONCRETE PRODUCTS INC.

LIGHT-WEIGHT & CONCRETE BLOCKS / CALL COLDWATER 278-2309

UNION CITY, MICHIGAN

Union City derived its name due to the fact that at this very point the Coldwater River and the St. Joseph River joined with each other. The St. Joseph River starting at Baw Beese Lake near Hillsdale and the Coldwater River originating from the lakes at Coldwater. From the junction of these two streams at Union City, the river is known as the St. Joseph River and flows westward into Lake Michigan at St. Joseph, Michigan.

In the late 17th century French explorers established a trading post here as they pushed westward into the unexplored middle west via the St. Joseph River.

At one time Union City was the head of navigation on the St. Joseph River with St. Joseph, Michigan as its lake port. In the early thirties the Government appropriated \$50,000.00 to improving navigation in the river westward from this village.

Large quantities of "bog" and "kidney" iron-ore was mined here, in those days, and shipped by water. The water-power at this location fostered large lumbering mills as well as the "Union City Iron Company".

From the time of the Indians, the St. Joseph River was their favorite fishing stream and has remained a lure to fishermen to this date.

Union City is located half way between Jackson and Niles on Truck Line M-60. Population of Union City is approximately 2,000 friendly folks.

Union City is a good and friendly community in which to live and work. The residential section is well-kept up and attractive. There is a wide and well-laid out business district with modern stores, including supermarkets, hardwares, variety, drygoods & jewelry establishments; a theatre, weekly newspaper, restaurants and a number of other outlying business places. There are approximately 400 dwelling units here and these are 100 per cent occupied. New construction is constantly underway, however, and several beautiful new residential sub-divisions are now laid out. Commercial and professional services here are very complete. An old town, as Michigan communities go, Union City was founded in 1833, in the heart of Indian country. It has rich lore in the early history of Michigan. Never a "boom" town, it has shown slow, but steady growth in its more than a century and a quarter of existence. Union City is located on the "Air Line" of the New York Central Railroad system. The Greyhound Bus Lines operating between Detroit and Chicago over M-60 makes regular stops here providing passenger transportation. Five truck companies, Superior, Alvan, Consolidated, Inter-State and Hooker provide freight service via the same route and between Coldwater and Battle Creek.

Union City has long been noted for an excellent and progressive school system. It embraces a large district, which reaches into two counties. The modern high school has been continuously accredited by the University of Michigan since 1892. Only one other school is this size in Michigan can match that record. A new elementary school was built in 1953 and a large addition added to it in 1956. The system employs 50 teachers, all but a half dozen owning their own homes in the community. A fleet of 18 school buses provides educational opportunities for secondary pupils in the surrounding area.

The Municipal Power Plant has a Consumers Power Company. Tie-in, assuring adequate electric power for industrial and residential needs.

BRONSON, MICHIGAN

Bronson is an agricultural, industrial and recreational community, located on Highway US-12 in the western portion of Branch County.

A modern city of more than 2,500 population, Bronson is especially notable for the excellent and complete services it provides for its residents, businesses and industries.

All streets of the city are paved and sidewalks are kept in repair. Bronson residents take particular pride in their homes and maintain them in outstanding fashion along the tree-shaded streets of the community.

A modern and complete sewage disposal system serves the city, which also has a storm sewer system and a separate industrial sewer for proper disposal of industrial wastes. The water system provides abundant water of excellent quality and the city is the only one in the county which fluoridates its drinking water for dental health purposes.

Educational facilities are among the best in southern Michigan, including two elementary schools, a junior high, and a fine new high school building. In addition, St. Mary's Assumption Church, the local Roman Catholic parish, operates an elementary school, also housed in a new building complete with gymnasium. Five Protestant churches, in addition to St. Mary's, serve the community and all have new or recently-remodeled facilities and traditions of hospitality to newcomers and visitors.

Zoning ordinances provide protection for the property owner and are but one result of the work of the Bronson Planning Commission. Also working for orderly progress in the community is the Bronson Development Corporation, which recently constructed an industrial shell building for prospective new industry.

Among the industrial firms presently located in the community are the following: The Douglas Division of Scott & Fetzer, manufacturers of vacuum sweepers and automotive parts; Bronson Specialties, a large tool and die firm, and its growing Bronson Plastics & Bronson Products Divisions; Bronson Manufacturing & Plating Company, plating & metal finishing; Kenward Gage & Engineering Company, tools, dies and jigs; Patriark, Inc., manufacturers of plastic building components; T-L-R Corporation, travel trailer manufacturers; Multi-Products Company, modular buildings; Craft Metal Fabricating Company, special equipment; and K & W Manufacturing Company, store display equipment.

18-Branch County General

BRONSON, MICHIGAN-Continued

Many active service, fraternal & veterans organizations are found in Bronson, including Rotary, Kiwanis, Jaycees, Chamber of Commerce, Knights of Columbus, Masonic Lodge, and numerous women's societies and clubs.

Retail businesses in Bronson offer a good selection of merchandise in many lines and the City has a full complement of professional services offered by physicians, dentists, attorneys, and a veterinarian. The weekly Bronson Journal is recognized as one of the outstanding newspapers of Southern Michigan.

Boating, fishing and swimming are available at the many lakes near Bronson. Other recreational facilities include a modern bowling alley, motion picture theatre, a sporty nine-hole golf course, and lighted municipal tennis courts. Four parks, two of them with picnic facilities, are found in or near the city.

Agriculture in the area is a mixture of grain and livestock farming, with an interesting specialty being the growing of gladiolus. The gladiolus fields, located mostly to the south and west of the city, are among the largest in Michigan.

QUINCY, MICHIGAN

Manufacturing sites available along the busy New York Central Railroad. Quincy is the busiest station in the division. Centrally located on US 12, 105 miles west of Detroit and 165 miles east of Chicago. Excellent road system in all directions. Quincy is approximately halfway between the Indiana Turnpike and I-94 Expressway. The new US 27 will be four miles from Quincy.

BRANCH COUNTY

ROAD GUIDE

In the following list the roads are arranged alphabetically including the State & US Highways. The house number is given & opposite the number is placed the names of the occupants. The symbol Δ indicates that there is a phone at that address and telephone numbers are given when available.

The number of acres is given with the symbol \odot denoting ownership and the letters TAF denoting Total Acres Farmed.

Each township line is designated as is also mailing addresses and intersecting roads. Zip codes are given with each mailing address change.

The letter and number after each road name is the map key and is used to locate the road on your county map.

The following is a list of phone exchanges used in this directory:

238-----Coldwater Lake	542-----Litchfield
278-----Coldwater	639-----Quincy
279-----Coldwater	651-----Sturgis
283-----Reading	665-----Angola, Indiana

REACH FOR A**ROBINSON DIRECTORY**

A SECTION OF LAND, 640 ACRES

LONG MEASURE

1 Mile	— 80 Chains
	— 320 rods
	— 5280 feet
1 Chain	— 4 rods
	— 66 feet
	— 100 links
1 Rod	— 5 $\frac{1}{2}$ yards
	— 16 $\frac{1}{2}$ — feet
	— 25 links
1 Link	— 0.66 feet
	— 7 $\frac{1}{8}$ inches

SQUARE MEASURE

1 Sq. Mile	— Regular Section
	— 640 Acres
1 Acre	— 10 sq. chains
	— 160 sq. rods
	— 43,560 sq. feet
An acre is about 208 $\frac{1}{4}$ feet sq.	
An acre is about 8 rods wide 20 rods long, or any area the product of whose length by its width (in rods) is 160 or in chains is 10.	
1 Sq. Rod.	— 30 $\frac{1}{4}$ sq. yds.
	— 272 $\frac{1}{4}$ sq. ft.
1 Sq. Ft.	— 144 sq. inches

FIRE FIGHTING

FIRE PREVENTION

1. Never let combustible materials accumulate in attic or basement.
2. Never store cloths or papers that have linseed oil or fresh paint on them, except in closed metal cans.
3. Check your heating systems to see that smoke pipes are in good condition, chimneys free from soot, and all cracks plugged with patching plaster. Wooden joists should not be built into any chimney.
4. Do not store gasoline or more than the smallest amount of other inflammable materials such as turpentine, benzine, naphtha, etc., in the home. Do not use these for dry cleaning.
5. Keep a good adequate-sized fire extinguisher-carbon-dioxide, dry powder, or volatile-liquid type should be kept on the kitchen wall or in other convenient place in the house. Only the carbon-dioxide type can be used on foods (fat fires in the frying pan or broiler, for example) without harming them. Fire extinguishers, if ample in size, are guardians of basement, attic, and garage.
6. Avoid the habit of smoking in bed; too often it has tragic results. If you fall asleep, the burning cigarette may ignite a serious fire before you are aroused.
7. Never leave a campfire until it is out, cold and wet. Never drop a burning match or cigarette on dry leaves or grass. Never throw a lighted match or cigarette from your car.

WHAT TO DO FIRST

If you are not able to put out the fire immediately, keep calm, call the fire department, and quietly and quickly get everyone out of the building. Even if you think you can put out a fire call the fire department first even if they arrive after it is all over. If there is any danger of the fire getting between you and the door, leave at once. Always have a path open for safe and quick retreat. Whether you are fighting or escaping from a fire never open a door until you have felt it. If it is hot, don't open it; suffocating fumes lie behind a door that is hot to the touch.

PUTTING OUT THE FIRE

WASTEBASKET FIRES. These are often due to careless handling of cigarettes and matches. These can usually be quickly extinguished by flipping the wastebasket upside down (except wicker baskets). It's hard on the carpet but very effective. If the basket is near a curtain, flip it over away from the curtain.

WHEN CLOTHING IS ON FIRE. If a person's clothes catch fire do not let him become panicky and start to run. Grab him, put him flat on the floor, and wrap him in a rug, blanket, or any woolen garment at hand. This will put out the fire and avoid the danger of his breathing the flames which might be fatal.

FIRE IN AN AUTOMOBILE. Small engine fires can be put out by generously applying handfuls of roadside dust to the flames. Naturally, a more effective job can be done with a small-sized carbon-tetrachloride extinguisher.

USING A FIRE EXTINGUISHER

Play the extinguisher at the base of the flames on burning material, not at the flames' center. Never use water on grease, oil, or electrical-equipment fires; it spreads the flames. Use carbon-tetrachloride, carbon-dioxide-gas, or dry powder extinguishers. All these are effective for electrical, oil, gasoline, and other flammable-liquid fires. With the vaporizing-liquid type (carbon-tetrachloride and a few others) care must be taken not to breathe the vapors. Hold the extinguisher at arm's length.

FIRE FIGHTING

FIRE PREVENTION

1. Never let combustible materials accumulate in attic or basement.
2. Never store cloths or papers that have linseed oil or fresh paint on them, except in closed metal cans.
3. Check your heating systems to see that smoke pipes are in good condition, chimneys free from soot, and all cracks plugged with patching plaster. Wooden joists should not be built into any chimney.
4. Do not store gasoline or more than the smallest amount of other inflammable materials such as turpentine, benzine, naphtha, etc., in the home. Do not use these for dry cleaning.
5. Keep a good adequate-sized fire extinguisher-carbon-dioxide, dry powder, or volatile-liquid type should be kept on the kitchen wall or in other convenient place in the house. Only the carbon-dioxide type can be used on foods(fat fires in the frying pan or broiler, for example)without harming them. Fire extinguishers, if ample in size, are guardians of basement, attic, and garage.
6. Avoid the habit of smoking in bed; too often it has tragic results. If you fall asleep, the burning cigarette may ignite a serious fire before you are aroused.
7. Never leave a campfire until it is out, cold and wet. Never drop a burning match or cigarette on dry leaves or grass. Never throw a lighted match or cigarette from your car.

WHAT TO DO FIRST

If you are not able to put out the fire immediately, keep calm, call the fire department, and quietly and quickly get everyone out of the building. Even if you think you can put out a fire call the fire department first even if they arrive after it is all over. If there is any danger of the fire getting between you and the door, leave at once. Always have a path open for safe and quick retreat. Whether you are fighting or escaping from a fire never open a door until you have felt it. If it is hot, don't open it; suffocating fumes lie behind a door that is hot to the touch.

PUTTING OUT THE FIRE

WASTEBASKET FIRES. These are often due to careless handling of cigarettes and matches. These can usually be quickly extinguished by flipping the wastebasket upside down(except wicker baskets). It's hard on the carpet but very effective. If the basket is near a curtain, flip it over away from the curtain.

WHEN CLOTHING IS ON FIRE. If a persons' clothes catch fire do not let him become panicky and start to run. Grab him, put him flat on the floor, and wrap him in a rug, blanket, or any woolen garment at hand. This will put out the fire and avoid the danger of his breathing the flames which might be fatal.

FIRE IN AN AUTOMOBILE. Small engine fires can be put out by generously applying handfuls of roadside dust to the flames. Naturally, a more effective job can be done with a small-sized carbon-tetrachloride extinguisher.

USING A FIRE EXTINGUISHER

Play the extinguisher at the base of the flames on burning material, not at the flames' center. Never use water on grease, oil, or electrical-equipment fires; it spreads the flames. Use carbon-tetrachloride, carbon-dioxide-gas, or dry powder extinguishers. All these are effective for electrical, oil, gasoline, and other flammable-liquid fires. With the vaporizing-liquid type (carbon-tetrachloride and a few others)care must be taken not to breathe the vapors. Hold the extinguisher at arm's length.

LOOK

BRONSON, MICHIGAN

STREET GUIDE

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given and opposite the number is placed the names of the occupants. In all streets both sides of the street are included in one list.

The symbol $\text{\textcircled{B}}$ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be assumed, nor can the publisher furnish further information than that shown.

The telephone number follows the symbol Δ denoting houses and placed of business having telephones. All telephone numbers are preceded by the prefix 369.

The zip code for Bronson is 49028.

FIRE FIGHTING

FIRE PREVENTION

1. Never let combustible materials accumulate in attic or basement.
2. Never store cloths or papers that have linseed oil or fresh paint on them, except in closed metal cans.
3. Check your heating systems to see that smoke pipes are in good condition, chimneys free from soot, and all cracks plugged with patching plaster. Wooden joists should not be built into any chimney.
4. Do not store gasoline or more than the smallest amount of other inflammable materials such as turpentine, benzine, naphtha, etc., in the home. Do not use these for dry cleaning.
5. Keep a good adequate-sized fire extinguisher-carbon-dioxide, dry powder, or volatile-liquid type should be kept on the kitchen wall or in other convenient place in the house. Only the carbon-dioxide type can be used on foods (fat fires in the frying pan or broiler, for example) without harming them. Fire extinguishers, if ample in size, are guardians of basement, attic, and garage.
6. Avoid the habit of smoking in bed; too often it has tragic results. If you fall asleep, the burning cigarette may ignite a serious fire before you are aroused.
7. Never leave a campfire until it is out, cold and wet. Never drop a burning match or cigarette on dry leaves or grass. Never throw a lighted match or cigarette from your car.

WHAT TO DO FIRST

If you are not able to put out the fire immediately, keep calm, call the fire department, and quietly and quickly get everyone out of the building. Even if you think you can put out a fire call the fire department first even if they arrive after it is all over. If there is any danger of the fire getting between you and the door, leave at once. Always have a path open for safe and quick retreat. Whether you are fighting or escaping from a fire never open a door until you have felt it. If it is hot, don't open it; suffocating fumes lie behind a door that is hot to the touch.

PUTTING OUT THE FIRE

WASTEBASKET FIRES. These are often due to careless handling of cigarettes and matches. These can usually be quickly extinguished by flipping the wastebasket upside down (except wicker baskets). It's hard on the carpet but very effective. If the basket is near a curtain, flip it over away from the curtain.

WHEN CLOTHING IS ON FIRE. If a person's clothes catch fire do not let him become panicky and start to run. Grab him, put him flat on the floor, and wrap him in a rug, blanket, or any woolen garment at hand. This will put out the fire and avoid the danger of his breathing the flames which might be fatal.

FIRE IN AN AUTOMOBILE. Small engine fires can be put out by generously applying handfuls of roadside dust to the flames. Naturally, a more effective job can be done with a small-sized carbon-tetrachloride extinguisher.

USING A FIRE EXTINGUISHER

Play the extinguisher at the base of the flames on burning material, not at the flames' center. Never use water on grease, oil, or electrical-equipment fires; it spreads the flames. Use carbon-tetrachloride, carbon-dioxide-gas, or dry powder extinguishers. All these are effective for electrical, oil, gasoline, and other flammable-liquid fires. With the vaporizing-liquid type (carbon-tetrachloride and a few others) care must be taken not to breathe the vapors. Hold the extinguisher at arm's length.
