PUBLIC USE OF MOVIE LICENSE POLICY

Adopted: February 20, 2012

Last Revised: n/a

At Branch District Library branches where meeting space is available, groups may take advantage of the library's movie license to view films. Films must be shown during the library's regular business hours and must be approved by a library manager ahead of time to be sure they are suitable and covered by our movie license. There are limitations on how groups may advertise their movie events. Please see a library manager for details.

Library staff shall monitor playing the movie on library-provided equipment.
